

My Life Story

Family Violence: when people drink too much that when we have a family violence sometime it's hard for them to go through with what we grown up around family violence.

Neglect: My surrounding was filled with emotional and physical abuse. I was constantly yelled at when I don't do things the right way. I would sometimes get cussed at for no reason. I got beaten up as a result of alcohol and substance abuse in my family. I didn't have help.

Accomplishments: I achieved my high school diploma even though it was hard for me. I really want to prove to my sister who passed away that I can do it. I am now attending college. It is a great challenge for me, but I am doing my best. I just need to focus and reach my goal and I didn't know that I can do it.

Sagan Linala Transitional Living Program: It has shown me a better side of me. This program changed me to be a better person and that no matter what; we'll all accomplish our goals in life. The staff at Sanctuary has helped me a lot and understands what I went through. I am always praying for god to guide me through everything.
